MULTI LAYER FABRIC 2

Made of a 2-layer fabric, in which a waterproof membrane is bonded to a multifunctional material

MULTI LAYER FABRIC 3

Made of a technical 3-layer material, in which the membrane is bonded between shell and lining creating one functional material

TAPED SEAMS / FULLY

All seams have been taped to make the product perfectly waterproof

TAPED SEAMS / MAIN

The most critical seams of this product have been taped waterproof

4-WAY STRETCH

The 4-way stretch material stretches to all directions giving a maximum freedom of movement

2-WAY STRETCH

The 2-way stretch material increases the freedom of movement

WIND

This windproof material provides optimal wind protection and warmth

WATER-REPELLENT

The fabric surface has been treated with a water-repellent finish

SOFTSHELL

Softshell is a functional material for a wide range of outdoor activities. The product provides weather protection while being comfortably flexible at the same time.

THERMAL

The thermal material is warm and lightweight and dries quickly

PACKABLE

This product is designed to be packed away into its own pocket or an attached pouch for convenient storage and easy carrying while on the move

REFLECTIVE ELEMENTS

The product includes reflective elements

RECYCLED MATERIAL

This product contains recycled materials, making less of an impact on our environment
